In-house or outsourced VoIP telephony billing solution that suites your needs – and for the fraction of price!

Save time and resources with lower hardware, installation and maintenance costs with hosted CCM Billing

CCM Billing comes in two flavors: stand-alone and hosted (light version).

Light (hosted) version of CCM Billing has all the features as the stand-alone version but allows you to avoid hardware and maintenance costs altogether.

If you manage not more than 100 users we are able to provide you with 'outsourced' billing solution hosted on our servers. You will still have every functionality and

flexibility of a stand-alone version, but you will not have to maintain, upgrade or manage hardware, or software. In addition – you will also get free software upgrades for 1 year!

Our hosted solutions are

- Fully featured
- Customizable & flexible
- Without hardware / maintenance costs
- 1 year of free software upgrades

All versions feature

- Multilingual reports
- Multilingual user interface
- Geographic call distribution
- Dashboard overview
- Reports by called countries, networks and numbers
- Detailed call listings
- Interactive flash charts
- Web-based access
- Support for all current browsers
- Scheduled Report delivery
- HTML Email & PDF reports
- Scheduled and on-demand summary reports for managers
- Scheduled and on-demand listings and detailed reports for end-users
- Multiple users support
- Company name and logo on all reports and user interface
- Custom networks and rates
- Support for all Cisco Call Manager versions Automatic CDR import and processing for uploaded CDR
- CDR import/process logs
- Separate CDR / billing data
